Our scheduled March 24th, 2020 meeting was cancelled due to Covid-19

As most of you know the Walnut Grove sewer project is moving forward Lake City Borough has applied for a grant from CDGB for the maximum of \$100,000 and the authority will support the balance required of \$97,000 and the engineering cost will be covered by Lake City Borough. This grant is a federal and state grant and will be voted on by the CDGB committee later in the year with projected start time in 2021 late spring.

At this time communications will be thru email or phone by Bob Pier until we are able to discuss critical items; unless there is government monies available to extend sewer line project the borough is not willing to impose additional costs on the home owners for sewer extensions.
